Walter J. Harvey, School Board Attorney

SUBJECT: INITIAL READING: AMENDMENT OF BOARD POLICIES 8405, SCHOOL SAFETY; 5112, ENTRANCE REQUIREMENTS; AND 8330, STUDENT RECORDS

COMMITTEE: PERSONNEL, STUDENT, SCHOOL, AND COMMUNITY SUPPORT

LINK TO STRATEGIC BLUEPRINT: SAFE, HEALTHY & SUPPORTIVE LEARNING ENVIRONMENT

After the tragedy at Marjory Stoneman Douglas High School in Broward County in 2017, the Florida Legislature and State Board of Education passed various new statutes, amendments to statutes, rules and forms, to address school safety and security, threat assessment and mental health concerns at schools. This item seeks authorization to initiate rulemaking proceedings to amend Board Policies 8405, School Safety, 5112, Entrance Requirements, and 8330, Student Records, to incorporate these statutory requirements from the earlier SB 7026 and from SB 7030 which just recently became law and amended statutory provisions passed in SB 7026 and added additional requirements. Many of the SB 7030 amendments were the result of recommendations made by the Marjory Stoneman Douglas High School Public Safety Commission.

The proposed policy revisions include School Board safe-school officer requirements; establishment, duties and responsibilities, and recommendations of the District School Safety Specialist; the requirement for the Board and each charter school to adopt an active assailant response plan and accompanying certifications that all personnel have received annual training; authority for the Superintendent to develop administrative procedures for the prevention of violence on school grounds; threat assessment teams; the responsibility to ensure timely and accurate reporting of incidents related to school safety and discipline; student crime watch requirements; timely transfers of student cumulative files and mental health information, and required mental health disclosures upon school registration. All of these policies have been reviewed and are recommended by the Superintendent and the District Cabinet members and staff who will be responsible for implementing them.

Attached are the Notice of Intended Action and policy amendments. Changes are indicated by underscored words to be added and striking-through-words to be deleted.

Authorization of the Board is requested for the Superintendent to initiate rulemaking proceedings in accordance with the Administrative Procedure Act to amend Board Policies 8405, School Safety, 5112, Entrance Requirements, and 8330, Student Records.

RECOMMENDED:

That The School Board of Miami-Dade County, Florida, authorize the Superintendent to initiate rulemaking proceedings in accordance with the Administrative Procedure Act to amend Board Policies 8405, School Safety, 5112, Entrance Requirements, and 8330, Student Records.

ENTRANCE REQUIREMENTS

All children who have attained the age of six (6) years or who will have attained the age of six (6) years by February 1st of any school year or who are older than six (6) years of age but have not attained the age of sixteen (16) years, except as otherwise provided in Florida law, are required to attend school regularly during the entire school term. All children enrolling in a District school shall meet the immunization requirements in F.S. 1003.22 and provide evidence of a physical exam. The person enrolling the student shall report in person to the school to enroll their school age child.

A child who attains the age of sixteen (16) during the school year is not subject to compulsory school attendance beyond the date upon which s/he attains that age if the child files a formal declaration of intent to terminate school enrollment with the School Board. The declaration must acknowledge that terminating school enrollment is likely to reduce the student's earning potential and must be signed by the child. The District must notify the parent of the child's declaration of intent to terminate school enrollment.

Kindergarten

Any child who will have attained the age of five (5) years on or before September 1st of the school year shall be eligible to enroll in kindergarten at any time during the year.

A transferring kindergarten student is eligible to be enrolled in the District if the entrance age requirements have been met outside Florida and the child had been regularly enrolled there.

Children entering kindergarten in the District for the first time must comply with F.S. 1003.21 regarding entry age. A child must be five (5) years old on or before September 1st, in order to meet the Florida age requirement for kindergarten. A child under age six (6) who is enrolled in kindergarten will be considered of compulsory school age.
First Grade

Any child who has attained the age of six (6) years on or before September 1st of the school year and satisfactorily completed the requirements for kindergarten in a public school according to the District’s Student Progression Plan (Policy 5410) or in a nonpublic school from which the Board accepts transfer of academic credit, or who otherwise meets the criteria for admission or transfer in a manner similar to that applicable to other grades shall be admitted or promoted to the first grade at any time during the school year.

A transferring first grade student is eligible to be enrolled in the District if the entrance-age requirements have been met outside Florida and the child had been regularly enrolled there.

Children entering first grade in the District for the first time must comply with F.S. 1003.21. Any child who has attained the age of six (6) years on or before September 1st of the school year and who has been enrolled in a public school or who has attained the age of six (6) years on or before September 1st and has satisfactorily completed the requirements for kindergarten in a non-public school, or who otherwise meets the criteria for admission or transfer in a manner similar to that applicable to other grades, shall progress according to the District’s Student Progression Plan (Policy 5410).

Initial Entry

Every child initially entering a District school must prove age by an authentic document issued by a governmental agency. The school should attempt to verify age at the time of spring registration. State law (F.S. 1003.21) specifies the evidence which may be used for this purpose and also indicates that if the first prescribed evidence is not available, the next evidence obtainable in the order below shall be accepted:

A. a duly attested transcript of the child’s birth record filed according to law with a public officer charged with the duty of recording births;

1. B. a duly attested transcript of a certificate of baptism showing the
date of birth and place of baptism of the child, accompanied by an
affidavit sworn to by the parent;

2. C. an insurance policy on the child's life which has been in force for at
least two (2) years;

3. D. a 'bona fide contemporary Bible record of the child's birth
accompanied by an affidavit sworn to by the parent;

4. E. a passport or certificate of arrival in the United States showing the
age of the child;

5. F. a transcript of record of age shown in the child's school record of at
least four (4) years prior to application, stating date of birth; or

6. G. if none of this evidence can be produced, an affidavit of age sworn to
by the parent, accompanied by a certificate of age signed by a public
health officer or by a public school physician, or, if neither of these
is available in the county, by a licensed practicing physician
designated by the Board, which certificate shall state that the health
officer or physician has examined the child and believes that the age
as stated in the affidavit is substantially correct.

7. H. Children entering the District for the first time must comply with
F.S. 1003.21 and with the District's Student Progression Plan
(Policy 5410). Students must have an immunization record on file
at the school. Any student who does not have the proper
immunization shall be temporarily excluded from attendance until
compliance has been documented.
I. Upon a child's initial entry to a District school, the principal shall require evidence of a physical examination performed within one (1) year prior to the date of entry. An appointment for a physical examination by a county health officer, licensed physician, or chiropractor may be accepted provided the principal is given evidence of the physical examination within one (1) week of such examination. Students transferring into the District from a school within the State of Florida who have completed physical examination form as part of their school record need not be re-examined. Examinations taken out-of-state may be accepted if performed within one (1) year of entry and include documentation and reported on the official forms of the physician.

J. A child may be exempt from the required physical examination and/or immunization upon written request of the parent or guardian of such child stating objection to examination and/or immunization on religious grounds or for medical reasons certified by a competent medical authority.

Proof of Age

If acceptable proof of age is not presented when the child first seeks admission, the principal should enroll the student temporarily and give the parent thirty (30) calendar days to secure proper proof.

Birth Certificate

The Division of Attendance Services will supply appropriate forms for making application for a birth certificate. Some parents may need help from school personnel in completing these applications. Providing such assistance will enable the school to be sure that the proper procedure has been followed. Original copies of birth certificates usually have an embossed seal imprinted on them. All photostatic copies not bearing this seal should be carefully evaluated to determine authenticity.

If questions arise which the school cannot answer regarding birth certificates, the principal should call the appropriate region director.

Access to Student Records

The rights of parents and eligible students with respect to education records created, maintained, or used by the District must be protected according to FERPA and its implementing regulations. Parents and eligible students have the right to access education records, including the right to inspect and review those records, and have the right to waive their access to their education records in certain circumstances.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" refers to students who are eighteen (18) years of age or older, or who are enrolled in a postsecondary institution, regardless of age.

The custodian of the student record shall permit the eligible student or the parents or guardians of the student who is or has been in attendance in the District to inspect and review the education records of the eligible student or student. Provisions for such inspection and review shall be made within a reasonable period of time of the request, but in no case shall be more than thirty (30) days after the request has been made.

The District presumes that the eligible student or either parent of the student has the right to inspect, review, and receive copies of the education records of the student or eligible student unless the Board, its staff, or the individual school has been provided a legally binding instrument or court order that expressly revokes those rights.

When records are opened to parents, guardians, or eligible students, schools shall make available a member of the professional staff to interpret the record and shall provide copies, at the current District copy rate, upon request. Testing materials will not be copied. The copy rate will include actual reproduction costs and will not include the labor costs for retrieval.
Parents, guardians, and eligible students may waive their right of access to confidential letters or statements of recommendations or evaluation. Such waiver shall be made in writing to the custodian of the records and shall be signed by the parent, guardian, or eligible student. Such waiver shall apply to recommendations or evaluation only if:

A. the parent, guardian, or eligible student is, upon request, notified of the names of all persons submitting confidential letters or statements; and

B. such recommendations or evaluations are used solely for the purpose for which they were specifically intended.

The waiver of right of access may be revoked in writing with respect to actions occurring after the revocation.

Whenever a student has attained eighteen (18) years of age, the permission and consent required of and rights accorded to the parents of the student as to student records maintained by the District, shall thereafter be required of and accorded to the eligible student only, unless the eligible student is a dependent of his/her parents as defined in Title 26 U.S.C. Section 152 of the Internal Revenue Code of 1954. The District may, in this instance, disclose personally identifiable information from the education records to the parents without the prior consent of the eligible student.

Whenever a student has enrolled in a postsecondary institution, regardless of age, the permission and consent required of and rights accorded to the parents of the student as to student records maintained by the postsecondary institution shall thereafter be required of and accorded to the eligible student only. However, if the student is not eighteen (18) years of age, then the permission and consent required of and rights as to the student records maintained by the District shall be retained by the parents.
Disclosure of Student Record Information

A. Prior Written Consent

1. Prior written consent of the parent, guardian, or eligible student shall be obtained prior to disclosing personally identifiable student information. The written consent shall include: signature of the parent, guardian, or eligible student; date; specification of records or information to be disclosed; purpose of the disclosure; and the party or class of parties to whom a disclosure is to be made.

2. Personally identifiable student information which is disclosed to an institution, agency, or organization may be used by its officers, employees, and agents, but only for the purpose for which the disclosure was made. Whenever parental consent is required for the inspection and/or release of a student's health or educational records, either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order.

3. If the student is under the guardianship of an institution, the Superintendent shall appoint a person who has no conflicting interest to provide such written consent.

B. Without Prior Written Consent

Personally identifiable records or reports of a student may be released to the following persons or organizations without the prior written consent of the student or the student's parent or guardian:

1. Officials of schools, school systems, career centers, or public postsecondary educational institutions in which the student seeks or intends to enroll; and a copy of such records or reports shall be furnished to the parent or student upon request.
policy

THE SCHOOL BOARD OF
MIAMI-DADE COUNTY

2. Other school officials, and teachers within the educational institution or agency, who have legitimate educational interests in the information contained in the records. The Superintendent may designate "other school officials" not directly employed by the School Board through inter-agency agreements that are created in support of legitimate educational interests and contain the pertinent requirements of this rule. Such agreements shall specify that the designated agency may not disclose the information to any other party without the prior consent of the parent or eligible student and may use the information only for the purposes for which the disclosure was made. However, the designated agency may make further disclosures of the information on behalf of the School Board if the disclosure meets the other requirements of this rule. Support employees may be designated by the principal for the purpose of doing clerical work and maintaining student records. However, such persons shall receive in-service training concerning the confidentiality of student records and work under the supervision and control of an administrative staff member.

3. The United States Secretary of Education, the Director of the National Institute of Education, the Assistant Secretary for Education, the Comptroller General of the United States, or State or local educational authorities who are authorized to receive such information subject to the conditions set forth in applicable Federal statutes and regulations of the United States Department of Education, or in applicable State statutes and rules of the State Board of Education.

4. Other school officials, in connection with a student's application for or receipt of financial aid.
5. Individuals or organizations conducting studies for or on behalf of an institution or a board of education for the purpose of developing, validating, or administering predictive tests, administering student aid programs, or improving instruction, if the studies are conducted in a manner that does not permit the personal identification of students and their parents by persons other than representatives of such organizations and if the information will be destroyed when no longer needed for the purpose of conducting such studies.

6. Accrediting organizations, in order to carry out their accrediting functions.

7. School Readiness Coalitions and the Florida Partnership for School Readiness in order to carry out their assigned duties.

8. For use as evidence in student expulsion hearings conducted by a district school board under F.S. Chapter 120; however, public records of expulsion hearings shall not contain any personally identifiable information.

9. Appropriate parties in connection with an emergency, if knowledge of the information in the student's educational records is necessary to protect the health or safety of the student or other individuals. Within a reasonable time after the disclosure, the District must record the following information in the student's education records when it discloses personally identifiable information from education records under the health or safety emergency exception:

   a. The articulable and significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure; and

   b. The parties to whom the agency or institution disclosed the information.
10. The Auditor General and the Office of Program Policy Analysis and Government Accountability in connection with their official functions; however, except when the collection of personally identifiable information is specifically authorized by law, any data collected by the Auditor General and the Office of Program Policy Analysis and Government Accountability is confidential and exempt from F.S. 119.07 (1) and shall be protected in a way that does not permit the personal identification of students and their parents by other than the Auditor General, the Office of Program Policy Analysis and Government Accountability, and their staff, and the personally identifiable data shall be destroyed when no longer needed for the Auditor General's and the Office of Program Policy Analysis and Government Accountability's official use.

11. A court of competent jurisdiction in compliance with an order of that court or the attorney of record in accordance with a lawfully issued subpoena, upon the condition that the parent or eligible student is notified by the custodian of the record of the order or subpoena in advance of compliance.

A person or entity in accordance with a court of competent jurisdiction in compliance with an order of that court or the attorney of record pursuant to a lawfully issued subpoena, upon the condition that the student, or his/her parent if the student is either a minor and not attending a postsecondary educational institution or a dependent of such parent as defined in 26 U.S.C. 152 (section 152 of the Internal Revenue Code of 1954), is notified of the order or subpoena in advance of compliance therewith by the educational institution or agency.
If the custodian of the record is unable to notify the parent or eligible student prior to time of compliance, s/he shall bring to the court's attention the provision of the Family Educational Rights and Privacy Act of 1974 and comply with the court's instructions.

If it is a subpoena issued for a law enforcement purpose in which the court or other issuing agency orders the educational agency or institution not to disclose the existence or contents of the subpoena or any information furnished in response to the subpoena, the school shall comply with the subpoena without giving notice to the parent.

Credit bureaus, in connection with an agreement for financial aid that the student has executed, if the information is disclosed only to the extent necessary to enforce the terms or conditions of the financial aid agreement. Credit bureaus shall not release any information obtained under this paragraph to any person.
13. Parties to an interagency agreement among the Department of Juvenile Justice, school and law enforcement authorities, and other signatory agencies for the purpose of reducing juvenile crime and especially motor vehicle theft by promoting cooperation and collaboration, and the sharing of appropriate information in a joint effort to improve school safety, to reduce truancy and in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions that provide structured and well-supervised educational programs supplemented by a coordinated overlay of other appropriate services designed to correct behaviors that lead to truancy, suspensions, and expulsions, and that support students in successfully completing their education. Information provided pursuant to interagency agreements is intended solely for use in determining the appropriate programs and services for each juvenile or the juvenile’s family, or for coordinating the delivery of such programs and services, and as such is inadmissible in any court proceedings prior to a dispositional hearing unless written consent is provided by a parent or other responsible adult on behalf of the juvenile.

16. If the District initiates legal action (a lawsuit) against a parent, or if the parent initiates legal action against the District. In such circumstances, the District may disclose to the court, without a court order or subpoena, the education records of the student that are relevant for the District to proceed with legal action as the plaintiff or to defend itself.
17. If the release is to the Attorney General of the United States or to his/her designee in response to an ex parte order in connection with the investigation or prosecution of terrorism crimes specific in Sections 2331 and 2332 of Title 18, U.S. Code.

Under this exception, school officials are not required to record (i.e., on an access log) the disclosure of information from a student's education record when the school makes pursuant to an ex parte.

Further, an educational institution that, in good faith, produces information from education records in compliance with an ex parte order shall not be liable to any person for that disclosure.

Directory Information

The District shall not make available certain information known as "directory information" without prior permission of the parents or the eligible student. The Board designates as student "directory information": a student's name; address; telephone number, if it is a listed number; date and place of birth; participation in officially-recognized activities and sports; height and weight, if a member of an athletic team; dates of attendance; date of graduation or program completion; and awards received.
In accordance with State law, the District shall release the names and addresses of students in grades ten through twelve (10-12) to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. Such data shall not be released if the eligible student or student's parents submit a written request not to release such information. The recruiting officer is to sign a form indicating that "any information received by the recruiting officer shall be used solely for the purpose of informing students about military service and shall not be released to any person other than individuals within the recruiting services of the Armed Forces". The Superintendent is authorized to charge mailing fees for providing this information to a recruiting officer. A secondary school student or parent of the student may request that the student's name, address, and telephone listing not be released without parental consent.

The record of requests for disclosure shall include the following: the parties who have requested or obtained personally identifiable student information, the legitimate interests of the persons requesting or obtaining the information, and date parental/eligible student consent was obtained.

With regard to such disclosures, a "school official" is determined to be any employee of the School Board of Miami-Dade County, Florida, with direct responsibility for providing services to students and other school officials designated by the Superintendent through an inter-agency agreement. A "legitimate educational interest" is determined to mean responsibility for providing direct educational services to students which will include teaching, counseling, psychological services, or other services to students which require access to personally identifiable information and/or those specified in the law.
Public Notification

Under FERPA, parents and eligible students must receive notice of their rights with respect to educational records. An annual written notice shall be given to inform parents, guardians, and eligible students of their rights of access, waiver of access, challenge and hearing, privacy, categories of personally identifiable student information designated as directory information data, and the location and availability of the District's policy on education records of students. Alternate methods of notice shall be made for parents, guardians, or eligible students unable to comprehend a written notice in English. The Superintendent shall prepare administrative procedures to ensure that students and parents are adequately informed each year regarding their rights to:

record is inaccurate, misleading, or in violation of their privacy, they may request an
informal meeting with the record custodian for the purpose of requesting the
correction, deletion, or expunction of any inaccurate, misleading, or otherwise

SCHOOL SAFETY

The School Board is committed to maintaining a safe and drug-free environment in all of the District's schools. School crime and violence are multifaceted problems that need to be addressed in a manner that utilizes all available resources in the community through a coordinated effort of School District personnel, law enforcement agencies, and families. School administrators and local law enforcement officials must work together to provide for the safety and welfare of students while they are at school or a school-related event or are on their way to and from school.

Safe-School Officers

The School Board shall establish or assign a safe-school officer at each school in the District in accordance with Section 1006.12, F.S. In order to fulfill this requirement, the Superintendent (1) may recommend, and the School Board may appoint, school safety officers and/or (2) may enter into cooperative agreements with county and municipal law enforcement agencies for the provision of school resource officers as necessary, or (3) contract with a security agency as defined in Section 493.6101(18) to employ school security guards provided certain training and contractual conditions are met as required by Section 1006.12, F.S.

The School Board by a majority vote may implement a guardian program in accordance with law. Regardless of whether the School Board implements a guardian program, however, a charter school governing board in the District may implement a guardian program in accordance with law.

Emergency Operations Plan

In accordance with Policy 8410, the Superintendent, in conjunction with the School Safety Specialist, shall develop the District's Emergency Operations Plan (EOP) Critical Incident Plan with input from representatives of the local law enforcement agencies, the local Fire Marshall(s) or his/her designee(s); representative(s) from emergency medical services; and/or representatives of the Miami-Dade County Health Department. The EOP shall be annually reviewed and updated as necessary and provided to the Board and other relevant parties in accordance with this and other Board policies (See Policies 8410, 8420.01).

Thereafter, the Superintendent shall convene a meeting periodically for the purpose of reviewing the Critical Incident Plan, and making modifications as deemed necessary and proper; identifying additional training that might be needed; and discussing any other such-related matters as may be deemed to be necessary by the participants. Participants in this meeting shall include the Superintendent or
his/her-designee, representatives of the local law enforcement agencies stated above,
and any other appropriate District-level personnel.

The Superintendent shall report to the Board about this review and recommend the
approval and adoption of any proposed revisions or additions to the Critical Incident
Plan.

The Superintendent shall designate a District School Safety Specialist in accordance
with state law and rules. The School Safety Specialist is responsible for the
supervision and oversight of all school safety and security personnel, policies, and

Section 365.171, F.S., that are designated as first responders to a
school’s campus to conduct a tour of such campus once every three

Any changes related to school safety, emergency issues, and
recommendations provided by the public safety agencies will be
considered as part of the recommendations by the School Safety
Specialist to the Board.

Recommendations of the School Safety Specialist

Based on the findings of the school security risk assessment, the School Safety Specialist shall provide recommendations to the Superintendent and Board which identify strategies and activities that the Board should implement in order to address the findings and improve school safety and security. The Board must receive the school security assessment findings and the recommendations of the School Safety Specialist at a publicly noticed Board meeting to provide the public an opportunity to hear the Board members discuss and take action on the findings and recommendations. The EOP and Threat Assessment and Mental Health Services Guide, however, are confidential and not subject to review or release as public records to the extent provided by law.

The School Safety Specialist shall report the school security risk assessment findings and the Board’s action(s) to the Florida Office of Safe Schools no later than thirty (30) days after the Board meeting.

violence on school grounds, including the assessment and intervention with  
individuals whose behavior poses a threat to the safety of the school community.

assessment instrument as developed by the Office of Safe Schools and as required
under applicable law.

The Superintendent shall develop and implement, in coordination with the District
School Safety Specialist, a Threat Assessment and Mental Health Services Guide

personnel shall report all such situations and actions taken to the threat
assessment team, which shall contact the other agencies involved with the student
and any known service providers to share information and coordinate any necessary
follow-up actions. Upon the student’s transfer to a different school, the threat
assessment team shall verify that any intervention services provided to the student
remain in place until the threat assessment team of the receiving school
independently determines the need for intervention services.
Each threat assessment team shall report quantitative data on its activities to the Office of Safe Schools and shall use the threat assessment database developed in accordance with Section 1001.212, F.S.
