

Communication with the Public

SCHOOL-SPONSORED MEDIA

The Superintendent of Schools and the Superintendent's staff are encouraged to use all available school-sponsored media of communication, such as publications, radio, and television, to keep the goals, program, achievements and needs of the schools before the public.

The Superintendent of Schools may delegate authority to the central administrative staff, to area superintendents and to the school principals at discretion. However, the ultimate responsibility for their performance is the Superintendent of Schools'.

The administration is responsible for all informational services to and from the public, except for such matters as the Board may from time to time wish to deal with publicly itself.
