

ACTIVITIES**EMPLOYMENT STANDARDS AND FINGERPRINTING OF ALL EMPLOYEES****I. INTRODUCTION**

Pursuant to Florida Statute 1012.32, it is the intent of the School Board to ensure that only individuals of good moral character remain employed by the school system. The Miami-Dade County Public Schools work force is mobile and an employee in the course of a career may be assigned to various work locations where students are present. It is thus necessary to perform the appropriate security checks on all employees of the District. Employees not found to be of good moral character will not be eligible for continued employment.

For purposes of this rule, good moral character means exemplifying the acts and conduct which would cause a reasonable person to have confidence in an individual's honesty, fairness and respect for the rights of others and for the laws of the state and nation.

1. Florida statutes require periodic re-fingerprinting of employees to remain employed. Upon re-fingerprinting, any new criminal history that was not previously reported and appropriately dealt with may result in disciplinary action up to, and including dismissal.
2. Current employees who are seeking instructional positions and who are required to be re-fingerprinted as part of the certification process may be subject to disciplinary action, up to and including dismissal, for any new criminal history that was not previously disclosed/discovered and appropriately dealt with. Any records of criminal offenses that were properly disclosed and previously cleared by the Office of Professional Standards will not be a cause for disciplinary action under this Rule upon subsequent review of the employee's history.

Personnel who have been fingerprinted and processed in accordance with Board rules and who have had a break in service shall be required to be re-fingerprinted in order to be re-employed.

The cost of the fingerprinting and the fingerprint processing shall be borne by the Miami-Dade County Public School District.

Employees found through the re-fingerprint process to have been convicted of a crime (regardless of adjudication or guilty plea, no contest plea and Pretrial Intervention) may be subject to disciplinary action up to, and including dismissal. Any records of criminal offenses that were properly disclosed and previously cleared by the Office of Professional Standards will not be a cause for disciplinary action under this Rule upon subsequent review of the employee's history. However, if the prior criminal offense or conviction was in anyway related to or involved child abuse or child neglect, including sexual assault/sexual battery, the prior criminal offense or conviction shall be considered for the purpose of taking appropriate employment or disciplinary action, regardless

of whether it was previously disclosed by the employee or previously cleared by the Office of Professional Standards.

Once an employee has previously disclosed his or her criminal history record and is cleared for employment with the District, said criminal history may not be used as an impediment to a promotion if the employee applied for same, fulfilled all the requirements thereto, and has otherwise qualified for said promotion

Notwithstanding the foregoing, the school district shall not be precluded from considering a current employee's criminal history background when making future employment/placement decisions, such as whether an employee with a prior conviction may be limited from holding a position of trust. Accordingly, administration has the discretion to review an employee applicant's prior criminal history in making appropriate placement decisions.
